ROBOTICS
EVENTS

HIGHLIGHTS & INSIGHTS

www.air.events

Launched to acclaim in 2016, in Oxford, AI & Robotics events continue to focus on the business application of AI for transformation and competitive advantage

Created for business leaders and strategists, the AI & Robotics events series provides up-to-the-minute insights, in-depth analysis, real-world case studies and networking opportunities within a community of early adopter companies.

Our most recent event in September 2017 brought together close to 200 academics, business leaders and government.

Here's what they had to say:

“

Interesting, contextual view of role of AI
Steven Hedges, DB (Deutsche Bank)

“

Great range of top speakers and experts in the field.
Mark Purdy, Accenture

“

I thoroughly enjoyed the event. I was hugely impressed by the content and presenters and cannot wait to attend another.
Caroline Troup, Telefónica UK

“

Well organized event with good range of topics to appeal to a broad audience. Great learning opportunity, which can be easily applied to the workplace.
Stuart Balnaves, UCAS

“

The best AI event I've attended to date. The quality of the speakers outshines other events. The topics were practical, varied and unique. Well done to the organisers.
Claire Masson, Financial Times | IE Corporate Learning Alliance

Just a few of our expert speakers

Prof Noel Sharkey

Emeritus Professor AI and Robotics, University of Sheffield, and co-Director of the Foundation for Responsible Robotics

Prof Philip Bond

UK Council for Science & Technology

Nicola Strong

Managing Director, Strong Enterprises

Garry Kasparov

Aimee van Wynsberghe

Assistant Professor in Ethics of Technology, University of Delft and co-Director of the Foundation for Responsible Robotics

Nicola Millard

Head of Customer Insights & Futurology, BT

Chris Corrado

Group Chief Operating Officer and Chief Information Officer, London Stock Exchange Group (LSE)

Angie Ma

Chief Operating Officer, ASI Data Science

Mark Preston

F1 and Formula Electric guru, entrepreneur and automotive engineer, StreetDrone

Peter Waggett

Emerging Technologies Director, IBM

Virginie Vast

Head of Cognitive Procurement and Digital Sourcing, Vodafone Procurement Company

Stewart Bromley

Chief Operating Officer, Atom Bank

Pete Trainor

Co-founder, US AI London and AI Think Tank Chairman, BIMA

Stephen Metcalfe

Joint Chair of the All Party Parliamentary Group for AI and Chair of the Parliamentary & Scientific Committee

Exploring the transformative business potential of AI and robotics

The AI & Robotics (AIR) events portfolio delivers both in-depth analysis and broad strategic overview. AIR events offer a time efficient and cost effective way to get up-to-speed with the latest developments and breakthroughs across these rapidly evolving technologies. Through its different platforms of knowledge share and networking, AIR events support organisations looking for opportunities and real-world applications that will future-proof their competitive advantage. AIR events provide ongoing engagement across a series of Directors' Forums and one Main Event, the apex of the yearly programme. The current programme takes place in London.

Deep Dive

AIR Directors' Forums offer focused deep dives that investigate the impact on key business sectors and key business applications. From Financial Services to Customer Engagement, these forums provide an invited audience with the opportunity to home in on specific topics and investigate market specific challenges and opportunities.

Up next

AIR Directors' Forum Employee Engagement

23 November 2017

Our next Directors' Forum will investigate AI's impact on the way organisations engage with employees, measure employee performance and satisfaction and predict which of their employees are most likely to quit. An intensive one-day in depth exploration with talks and discussions for an invited audience of business leaders. Hosted at Gallup's conference centre in The Shard, London.

AI & Robotics (AIR) events are organised by Connect Business Media

www.air.events

Big Picture

The AIR Main Event addresses the broader strategic issues and explores the transformational impact of AI and robotics across industries and sectors. With a focus on innovation and investment, business growth and profitability, it provides an audit of key development areas.

2018 events

AIR Directors' Forums

- BUSINESS TRANSFORMATION (March)
- FINANCIAL SERVICES (April)
- CUSTOMER ENGAGEMENT (June)
- DATA & ANALYTICS (September)
- WORKPLACE IMPACT (October)

AIR The Main Event (November)
